when leaving transition is a "smart move" toward being a

planning your transition is a "smart move"

one of the biggest transitions that will happen to you will one of the biggest transitions that will happen to you will involves your future career plans. After high school, will you need to involves your future career plans. After high school, will you need to you go to a university and then to a job? Will you want? you go to a university, some to a community get some other type of education to get a community of your path, some people go to a university, some to a community some people go to a university, an employer, and your path, college, some get training from an employer, what your path, adult education or trade schools. No matter what these adult education or trade schools in one or more of these you may decide to be involved in one or more of think about now.

All of this may seem overwhelming to think about now.

However, you do not have to go through it alone. Besides and thouser, you do not the steps, contacts and using this handbook to tell you the steps, and teachers who using this handbook to tell you have parents and Let them and places that can help you, you have parents and Let them and places that can help you through this transition. Let them are there to help you make a "smart move" to post-this handbook help you make a "smart move" to post-secondary education.

A caring teacher.

## TOWARDS YOUR FUTURE

In this section you will find steps you should take every year to make "smart moves" towards you future.

### **Eighth**Grade

- Identify your strengths, weaknesses, abilities, values and interests by participating in elective classes or extracurricular activities that may be available.
- Select the high school courses needed to meet your career goals.
- Consider a vocational technical high school that specifically addresses your career goals.

- Prepare for, take, and pass the Delaware State Testing Program (DSTP) in all academic areas.
- Become involved in extracurricular activities in and out of school.
- Explore careers by job shadowing, visiting work sites, and talking with people in careers that interest you.

### **Freshman** Year

- Meet with your guidance counselor and Individualized Education Plan (IEP) team to discuss and plan for career options.
- Request Pre SAT/SAT test information from counselor
- Speak with your teachers about helpful accommodations and document them in your IEP.
- Explore your career interests by job shadowing, or interviewing people in the careers that interest you.

- Explore postsecondary educational options: trade school, adult education, community college, or university.
- Become involved in extracurricular activities in and out of school.
- Explore careers by job shadowing, visiting work sites, and talking with people in careers that interest you.

### **Sophomore** Year

- Take the PSAT.
- Make sure you are enrolled in all courses required for high school graduation.
- Meet with your guidance counselor and IEP team to discuss and plan for career options.
- Visit a college campus.
- Obtain College entrance requirements by asking your guidance counselor or contact the college and request this information.

- Become involved in extracurricular activities in and out of school.
- Review goals and academic progress and see if you have changed your opinion about what you want to do.
- Explore careers by job shadowing, visiting work sites, and talking with people in careers that interest you.

### **Junior**Year

- Meet with guidance counselor and IEP team to evaluate progress and plan the courses needed for your senior year.
- Ask your guidance counselor for financial aid and scholarship information.
- Prepare for college entrance examinations well ahead of time.
- ☐ Take the SAT. Remember that you can take this exam more than once and use your best results when applying to colleges, you may also request extended time to take the test.

- ☐ Continue assessing career goals, as well as future life goals.
- Request information and catalogues from colleges of your choice.
- Narrow down the colleges you are most interested in attending.
- Remain involved in extracurricular activities, in and out of school.
- Set up college interviews and visits to your favorite colleges.
- ☐ Begin looking for a summer job within your career area..

SMART**MO**V

### **Senior**Year

- Make sure all graduation requirements have been met.
- Meet with your guidance counselor and IEP team to review your progress, materials you have received from colleges and the next steps you need to take.
- Make sure your IEP is up-to-date and includes needed assessments and accommodations.
- Ask teachers to write recommendations to accompany your college applications.
- Narrow your college choices and submit applications, well before deadlines.
- Obtain proper financial aid and scholarship applications.
- Submit FAFSA form, Free Application for Federal Student Aid, by February 28.
- Take all necessary tests required by the colleges of your choice.
- Follow up and make sure that the colleges have received test scores, applications and other important materials you have sent to them.

- Notify school of choice once letters of acceptance are received.
- Send any remaining grades or information to your school.
- Contact Division of Vocational Rehabilitation (DVR) and begin referral process by October.
- Be sure any/all accommodations are stated in your IEP, this will ensure that you qualify appropriately.

## --TRADE & COMMUNITY SCHOOLS

If you are interested in learning a trade, here are some steps you may want to take:

- Meet with your guidance counselor and IEP team to discuss and plan for career options.
- Obtain information from trade or specialty schools.
- □ Visit the schools of your choice.
- Obtain requirements for admissions to these schools.
- ☐ Have an interview with the school.
- ☐ Take any necessary tests required for admission.

If college is not for you, or you have not obtained your diploma, Delaware offers many Adult Education classes and Trade School programs.

There are three major reasons people enroll in **adult education**:

- to obtain a high school diploma
- □ to learn a trade
- for personal interest.

### HIGH SCHOOLDIPLOMA

Some of you reading this manual may decide to leave high school before graduation and secure a job. If you do this you should consider enrolling in adult education courses. Many employers prefer to hire individuals who have a high school diploma. Most states have programs that help adults without a high school diploma receive an education. Delaware has a very large program that enables adults to earn their diploma or obtain their GED (General Educational Development) Endorsement. Delaware also has a program that will help you learn a specific trade and earn a certificate in that field.

James H. Groves Adult High School was designed to allow any adult an opportunity to obtain his/her high school diploma. If you are interested in attending James Groves Adult High School, all you need to do is call and make an appointment with a counselor.

The GED is a test that shows you possess knowledge in math, english, literature, and social studies. A GED is equivalent to a diploma, but without credits. You can get a job or enroll in some postsecondary institutions with a GED. Groves offers the GED testing, as well as a program to prepare you for the test.

You can also enroll in the Adult Basic Education (ABE) courses offered at Groves, and use the ABE courses as a first step toward your GED or diploma.

Most of the programs at Groves have a fee. The ABE Program is free of charge. Please note that these prices can be obtained by calling one of the numbers listed below.

If you are a student with a learning or physical disability, your teachers and counselors can provide you with accommodations if needed. Speak with your teacher or counselor for more information. All Groves sites are accessible.

Apprenticeship programs usually consist of 2,000 hours per year of onthe-job training under the guidance of experienced craft workers. Through practical experience, an apprentice develops skills in a chosen trade. Apprentice training programs can last from a minimum of one year to a maximum of six years.

Apprenticeship also requires a minimum of 144 hours of related instruction during each year of training. This provides theoretical training to explain why things are done the way they are on the job.

Apprenticeship is attractive because an apprentice is paid during the training process and receives full craft worker's rate of pay upon completion of training. Apprenticeship programs are coordinated through the voluntary cooperation of labor, management, schools and government throughout the state. The apprenticeship training staff monitors and evaluates the variety and quality of the apprentice's work experiences. The training facility will certify that the apprentice has satisfactorily completed the apprenticeship program. Then, the State of Delaware Department of Labor will issue a certificate of completion signifying the apprentice has met all the requirements of apprenticeship (Onthe-Job and instruction)

Apprenticeships can be the beginning of a career ladder. After apprentices obtain craft worker's status, many find that greater opportunities open up because they are recognized as skilled workers. They often become superintendents, contractors, instructors in a trade or apprenticeship coordinators. Some go on to be business managers or achieve success as top-level officials in industry.

### WHERE TO BEGIN

If you are interested in an apprenticeship get in touch with

- · Apprenticeship and Training Office at 302-761-8121
- · A firm that has workers in a trade that interests you
- · The local union representative in the trade that interests you
- · Your high school guidance counselor

## DELAWARE TECHNICAL & COMMUNITY COLLEGE **D**

Delaware Technical and Community College (Del Tech), is a two-year institution where you can earn an associate's degree. Many people begin at a community college, then transfer to a four-year university. Del Tech has four campuses. They are located in Georgetown, Dover, Stanton and Wilmington. All four campuses offer generally the same courses.

### Programs of Study

Del Tech offers 85 Associate Degrees, 38 Diploma programs and numerous credit certificate programs, with connections to the eight possible career clusters. These eight career clusters include:

- □ Education
  □ Engineering
  □ Health Occupations
- □Human Services

Criminal Justice

- □Information Technology
  □Science
- □Life Science

Del Tech also houses the Parallel Program. In the Parallel Program you attend Del Tech for a year, then transfer to the University of Delaware. In this year, you get used to college life and

academically prepare for the challenge of a university curriculum. Many young adults take advantage of this opportunity and are very successful when they get to the university level.

### Office of Student Support Services

Del Tech also offers many support services; you will need to seek these from the Office of Student Support Services. This office is responsible for helping you find services and accommodations to help you succeed. You should meet with a counselor and discuss your needs. The counselor's at Del Tech will refer you to an outside agency to have testing and documentation completed. You and the counselor will make a plan and find out what accommodations will be useful. Some of the accommodations that students use are:

- □One-on-one assistance such as readers
- ☐Sign language interpreters
- □ Printed course materials on tape
- ■Testing accommodations
- Library
- Laboratory
- □Computer assistants
- ■Note takers
- □TDD's □Large print
- □Calculators □Cassette recorders

### Admissions

If Del Tech seems to be the option for you, here are the steps you need to take to be admitted to the school and take advantage of the supports you need to succeed.

Call them and make an appointment to visit the campus and meet with a counselor to discuss your needs. All information about you is kept strictly confidential.

Complete an application for admissions. All applications are considered equally. This follows the American with Disabilities Act (ADA). Most students are accepted to Del Tech. Once your application is turned in, you will be scheduled to take part in the Placement Testing Program. This is an untimed, computerized placement test. It lets Del Tech know which level of classes you should be enrolled in based on your knowledge and ability. You will take placement tests in reading, writing, and mathematics. Once your results are compiled, you will meet with a counselor and enroll in the courses that suit your abilities, interests, and needs

Four weeks prior to the start of classes contact the Student Support Services Office and arrange for any accommodations you may need. Remember, your accommodations must be documented in your IEP in order for you to be eligible to receive these services at Del Tech.

### REMEMBER

If you choose to pursue a postsecondary education, there are things you must remember:

Your disability must be documented in your IEP, by a doctor's diagnosis, or found by conclusive testing performed by the university.

You must take the initiative to obtain these services yourself. No one will come and ask you if you need help, you must tell them.

SMART**MOVES** 

## **EGE PROGRAMS**

Upon leaving high school you may decide to go to a four-year college, or university. A four-year college offers the opportunity to earn a bachelor's degree, to explore different fields, or to be trained for a career that requires extensive education. In the beginning of this book, we explained what you should do in each grade in order to prepare for college.

**Delaware State University** 

Wesley College

University of Delaware

## University of Delaware

### Programs of Study

The University of Delaware (UD) is located in Newark, Delaware, The largest university in Delaware, UD offers a vast number of degree programs where you can earn your bachelor and master degrees. Some degree programs include:

Agriculture	Economics
Anthropology	□Education
Business Administration	□ Engineering
Criminal Justice	□Chemistry
□Physical Therapy	□Nursing

### Academic Services Center

This office provides support to student with learning disabilities and/or ADD/ADHD. If you are accepted at UD. call the Academic Services Center and request a copy of "Questions and Answers About Learning Disability procedures and Practical Advice from the University of Delaware." This publication explains to you the supports and accommodations that the university offers. Once you make the decision to attend UD, you should send the following information to the Academic Services Center:

- ☐Your IEP or 504 plan,
- □All medical documentation of your disability
- ☐ Your most recent psychological evaluation

This documentation is a requirement before you can receive services. The Documentation Review Committee decides what accommodations are approved for each individual student. After your documentation is received and approved, you should contact a Learning Disabilities counselor for an

initial orientation to discuss your needs and get to know what services are offered. Remember that it is YOUR responsibility to obtain these services from the Academic Services Center.

The following supports are available to help you succeed:

- □Extended time on exams (time and a half or double time)
- ■Assistance with note taking
- ■Books on Tape through The Recording for the Blind & Dyslexic. Call 1-800-221-4792 for information
- ■Tutorial Services
- □Coaching
- □College Intensive Literacy
- ■Tape recording lectures
- Extended time for degree completion
- ☐ Assistance with academic difficulty

#### **ADA Office**

If you have a more severe disability or a physical disability, hearing impairment, depression, etc., you need to contact the Americans with Disabilities Act (ADA) Office, located at 51 Main Street. This office provides services and accommodations for students who are not learning disabled and/or ADD/ADHD. When you are ready to get help from the ADA Office, you must provide formal documentation from a licensed professional and schedule an intake meeting with an ADA counselor to discuss your accommodations.

Some of the accommodations offered by the Office of ADA are:

- Extended time on exams
- □ Course substitutions
- ■Testing accommodations
- □Priority scheduling
- ■Assistance with scheduling
- ■Waivers and changes in degree requirements

"Remember that it is YOUR responsibility to obtain these services from the Academic Services Center."

## DelawareState university ....

Programs of study

Delaware State University (DSU), located in Dover, is a four-year university offering a variety of programs where you can earn your bachelor's and master's degrees. Some degree programs include:
